

COMMUNITY OF FRIENDS

Date: **Thursday, March 15th, 2012**
1:00 to 2:30 pm

Speaker: **Lianne Belton**
Occupational Therapist & RDI certified Consultant,
Children's Rehabilitation Centre (specialized
Communications Resources for Children)

Topic: **Emotional Regulation in children and youth with
Asperger Syndrome**

"The ability to regulate one's emotions is an essential ability that underlies attention, social engagement and the development of relationships. Children with Asperger Syndrome and other developmental disabilities often face particular challenges with emotional regulation.

In this brief introduction to the topic, Lianne will discuss the developmental stages of emotional regulation. Parents will have the opportunity to consider what stage their own child may be functioning at, and begin to consider ways to help their child move forward with this crucial development".

Location: **St. Aidan's Church**
274 Campbell St. (at Kingsway)
Use side-door entrance on Kingsway
Fellowship Hall (lower level)

Wheelchair access

Babysitting available during session – please call the
